<sup>1</sup> Additional credits may be necessary based on specialization and denominational requirements.

These recommended degree completion plans are best used in conjunction with the official degree audit and the *Academic Catalog and Student Handbook*. The two-year plan is recommended as it allows for full-time enrollment and additional financial aid / scholarship opportunities. Required courses are projected to be offered in the semesters/years indicated, but students may wish to pursue electives in different terms. Students who wish to adopt an alternative plan of study, particularly if it is to exceed two years, should consult with their Faculty Advisor or MAPT

**For important program details, policies, and course descriptions, consult the *Academic Catalog and Student Handbook*.**
